Is gambling affecting your life?

Do you gamble to **escape worries**
or other uncomfortable feelings?

Are you **increasing your bets**
or gambling more often?

Are you concerned about a partner,
friend or relative's gambling behaviour?

Are gambling **related financial worries**
getting you down?

Is gambling **affecting** your **relationships**
with family, friends or employers?

Have you **lost time from work**
because of gambling?

Do you find yourself covering up or
making excuses for your gambling?

The Gambling Impact Society (GIS)

The Gambling Impact Society (NSW) Inc. was formed in July 2000 by a group of people who had been directly affected by problem gambling. We are a registered Health Promotion Charity run on a not-for-profit basis by volunteers and professionals working in the field of problem gambling and social welfare. Our primary role is to raise awareness about the multi-layered impacts of problem gambling in the community.

What is Problem Gambling?

“Problem Gambling is characterised by difficulties in limiting money and/or time spent gambling which leads to adverse consequences for the gambler, others or for the community” (Problem Gambling and Harm: Towards a National Definition, Nov. 2005). Some consider this behaviour similar to an addiction, others a learnt behaviour which can be unlearned.

We know that with appropriate treatment and support, along with family and community understanding many people are able to turn their lives around. Thereby freeing themselves from the roller coaster of emotional, relationship and financial crises of problem gambling.

Our aims are to:

- ✓ Increase community awareness about the impacts of problem gambling
- ✓ Support and empower those affected by problem gambling to obtain appropriate information, support & treatment
- ✓ Provide advocacy for and on behalf of those “at risk” or those affected by problem gambling
- ✓ Develop a range of self-help and professional educational resources and training opportunities for the community
- ✓ Work with all stakeholders to develop harm prevention policies and strategies to reduce problem gambling in the community
- ✓ Work in partnership with other stakeholders to develop a Public Health approach to preventing and reducing harm from problem gambling in the community
- ✓ Create opportunities for community development and capacity building with regards to addressing this public health issue
